

Local Venue Permission

PBC High is located in a very fortunate position, close to local sporting grounds, Currumbin Estuary and parks. Teachers and students have nearby access to venues and locations that can facilitate greater learning than what could be experienced within the four walls of their classroom.

The delivery of the best possible curriculum program will, at times, require variations to normal class venue. PBC will always advise you when your son/daughter is changing their usual timetabled lessons for excursion or incursions however there are times when normal timetabled classes would be better served utilising a local venue or location.

This agreement seeks permission for your son/daughter to be supervised while walking to and participating in supervised activities at the following local venues without seeking permission for each individual lesson:

- Currumbin Estuary including the boardwalk behind the school
- Salk Oval
- Palm Beach Parklands
