

Pacific Motorway (M1) – Varsity Lakes to Tugun upgrade

Package C Palm Beach to Tugun (PB2T) – Footpath impacts in Currumbin

June 2021

Background

Package C of the VL2T upgrade includes lane widening and major bridge construction on the Currumbin Creek Road overpass.

In April, the community was advised the footpath connecting the Currumbin Creek footbridge to Sarawak Avenue, needed to close to enable construction to commence in this area.

A pedestrian detour was implemented, which allowed safe and open access to a section of footpath on Sarawak Avenue underneath the M1 overpass. As works are progressing, this access is required to close, and the current detour will be extended across Sarawak Avenue at the existing traffic signals to the northern footpath underneath the M1 overpass. *See indicative map overleaf.*

The Currumbin Creek footbridge will remain open as often as reasonably practicable however, bridge users can expect short delays for safety reasons while heavy vehicle and machinery movements are carried out in this location.

What to expect

During the works, the community can expect:

- frequent footpath closures and associated detours
- noise from the use and movement of heavy machinery including trucks, excavators, rollers and piling equipment
- temporary and/or intermittent changes to Sarawak Avenue, Currumbin Creek Road and Duringan Street
- some minor vibration from these works is inevitable and should be expected.

Pedestrians and bike riders are reminded to pay extra attention navigating the work areas and follow any detour signage that may be in place.

Please continue to use open footpaths or dedicated pedestrian crossings only and keep out of work zones for your own safety.

Keeping informed

Contact the project team on the details below to register for free and regular updates or for further information about these works.

Phone: 1800 799 824* (*select Option 3*)
